Personal Profile

I have always worked in the IT Support sector but have decided to get into Frontend Development/Web Development as I believe it allows my more creative side to come through and I really enjoying learning new things every day. I have come a long way from when I first starting learning to code in September 2023, and I enjoy working on projects in my spare time as I believe this allows me to learn more and expand my knowledge further. Being in the IT Support sector, I have always enjoyed problem solving and helping others as well which I believe are transferable skills into the world of coding. In my free time I play sports and go to the gym regularly to keep fit and to keep disciplined.

Experience

Frontend Developer Internship |

Jan 2024 - Current

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Frontend Developer Support

Sep 2023 - Current

Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Modern Networks

May 2024 – Current

Onsite Engineer

Since moving to Manchester, I have started working for Modern Networks as an Onsite Engineer in the Trafford Centre. I am responsible for monitoring all the switches, UPS's, AP's and CCTV cameras across the two large sites within the Trafford Centre. I am also first point of call for all day-to-day IT issues that may arise amongst other tasks. I am involved in a lot of the projects that are ongoing and involved in the planning for any future projects. In this role I have gained a lot of experience in problem solving and quick thinking, as often I am solving urgent issues.

Rooms and Views
